86	The first congested area I encounter going to work Mon.-Fri. mornings is where Dorsey Road, in Granville County, intersects with U.S. Highway 158 Business. Approaching traffic from Vance County heading west block this intersection if several vehicles are at the stop sign making a left turn onto U.S. Highway 158 (bypass) West. There should be a "Do Not Block Intersection" sign at this location. Another congested area is where U.S. Highway 158 Business is intersected by Poplar Creek Road in Vance County. Several commuters, myself included, turn left onto Poplar Creek Road to access I-85. The road should be wider and there should be a left turn lane. Commuters on Poplar Creek Road trying to make a left turn onto U.S. Highway Business East have to wait several minutes for traffic to clear. A stoplight would be a good idea for this area. Also, on Poplar Creek Road, there is a very sharp curve that needs to be straightened.	Apr 25, 2011 12:25 PM

49	Though I would not use them, I think it would be beneficial to have on-road bike lanes. As a driver, it is very frustrating to get behind people riding bikes on the road. More times than none, there is no way to get around cyclers (or even mopeds) because of cars coming towards you in the other lane.	Apr 25, 2011 3:06 PM

57	Kerr Lake Areas such as Middleburg, Williamsboro, and Townsville need more public bus or commuter rail services available with special attention to those with disabilities & the elderly! Many of our elderly community members currently struggle to get transportation to the hospital or the doctor's offices. Many of them are forced to reschedule appointments because of the current public transportation solution, K.A.R.T.S. is often off schedule and the individual is too late for the appointent with the doctor. Our public transportation needs to be more scheduled and time oriented instead of runing like a taxi service on an on-call or by request option. If residents in the out-of-city areas had a schedule & a location to meet te bus, they could keep it more on schedule and the K.A.R.T.S. vans could be utilized more for individuals who can't get to a central bus stop. 43	This problem is not with physical change needs, but with the fact that SPEEDS of ALL traffic coming into and going out of Henderson on Oxford Road far exceeds the 35-mph limit	May 5, 2011 11:59 AM
44	congestion at the end of the Vanco Mill Rd. exit from Hwy. 1 South--very dangerous around 7:40-8:00 in the mornings; there are too many roads to watch for cars entering the highway as well as cars quickly popping over the hill and turning off in that intersection; also intersection on the other side of the bridge at the Vanco Mill Road exit from Hwy. #1 North; there have been two traffic accidents one which involved a teenage driver in the past 4-5 months. Both exits are extremely busy and congested during the school times.	May 4, 2011 3:13 PM
45	Bridgers Street needs to be widened	May 4, 2011 12:06 PM
46	Turning left coming from US1 North onto Andrews is dangerous. Need a light. Turning left onto Vickboro Road from Andrews Avenue is treacherous. Need at least a blinking light. Turning left off of Vanco Mill Road going toward Southern Vance is dangerous. Needs a light. Truckers park off the road in front of Walmart Distribution. Think parking area beside the road needs to be widened/paved. Think people parking in front of church on N. Chestnut St. is dangerous. Close a lane and make parking spaces. On Young St in front of Cooperative Extension/Child Protective Services, make parking spaces on south side of street instead of north side so people don't have to cross the street, esp. with children.	May 4, 2011 11:02 AM
47	Flooding on Satterwhite Pt Road (heading towards Satt. Point) in the right lane just past the gas station. Water always pools in a spot causing car to go out of control. Intersection by Fidelity Bank/Wendy's/Blockbuster --- needs some timing of the light, more turn signals, etc. HORRIBLE!!! I do all I can to avoid that intersection. The timing of the light coming off of I-85 North is off...we have sat at that light for more than 10 minutes waiting to turn left. DABNEY DRIVE as a whole needs help.	May 4, 2011 8:37 AM
48	Dabney Drive and Beckford Drive need delayed traffic signals. Route 39 and Garnett st. (by Fogg's Exxon) needs the roads widening and better turning traffic signals.	May 3, 2011 7:21 PM
49	Andrew's Avenue near buy rite that usually floods when it rains.	May 3, 2011 3:36 PM
50	Dabney Drive needs to be able to move traffic from I85 to downtown Henderson. When travelers get off the interstate and attempt to go downtown the area in front of the Henderson Mall bottle necks down to 2 lanes and many travelers will not proceed any further. If this corridor is improved to move traffic into the downtown area, Henderson will better prosper from the improvements. A select few business locations at the interstate interchange are the only ones benefiting from the I85 traffic (McDonalds, Bojangles etc. etc. This would allow for a more even distribution of travelers money in the Henderson area. 173	I already addressed this issue on a previous question. However, on U.S. Highway 158 Bypass traveling from Oxford to Henderson, the road should be wider and there should be a turn lane onto Lanning Road. Dabney Elem. School is on this road and the morning school traffic causes this area to become very congested.	Apr 25, 2011 12:33 PM
174	Dabney and Graham Ave. Turn lights are too short, intersection needs to be studied. Ruin Creek and Rd between gas station and Western Sizzlin, turn signal too short and backs traffic up consistently	Apr 25, 2011 12:16 PM
175	The highway where area churches Plank Chapel, Concord Baptist were made WORSE with last years "spot" paving. I am toying with the idea of photographing and sending to the governor and say this is what they did with the slush \$ you appropriated for highway improvements. When we drive, it is difficult to stay on the road due to the patches of tar that they put in the highway. It goes for at least 10 miles. The road was better before they applied the patching. You have to pray as you drive on rainy days. You literally run off the road or on the wrong side of the road. What was DOT thinking? I called and complained. I hope this survey gets more results than my "live" phone call.	Apr 25, 2011 12:01 PM

227	hwy 39 intersection at gillburg needs traffic light because visibility is bad and cars do not obey posted speed limit. City of Henderson workers need to repair roadways better after public utility repairs. Improper compacting creates dangerous dips in roadways that go unfixed. Speed limit needs to be raised on US1 bypass from Bearpond road all the way to Interstate 85 since its a ramp entry highway.	Apr 20, 2011 9:27 PM
228	SCL RR cuts our City in half,plus 3/4 of our crossings are proposed by DoT to be closed.This severely limits our East-West corridors,but hinders North-South ones also (especially if the new HiSpeed Rail encroaches onto already narrow Williams St,which is virtually the only North-South road serving the half of Henderson living on the east side of the RR tracks. The closing of the numerous RR crossings also creates added problems as virtually all shopping,banking, professional services and all medical, police fire, and governmental facuilities are all located on the West side of the RailRoad tracks. All 5 RR crossings extending south from the north end of our down-town business district are scheduled to be permanently closed. 276	Dabney Drive, in Vance County, is in need of 1) Road Widening and 2) Road Maintenance. I would like to see Speed Humps placed in the neighborhoods to reduce speeding in residential communities; specifically on Country Club Drive and Parker Lane. As well, the speed limit on Highway 85 should be increased to 70 miles per hour. Sidewalks should be placed/built throughout the community to promote safe walking patterns, and reduce pedestrians entering the roadway. This is a common problem amongst most roads in Vance County; specifically Henderson NC. Light timing should be addressed at Ruin Creek Road (for most stoplights). They are entirely too long, and slow traffic patterns! Flooding was a huge issue, on Saturday (4/16/11), due to a storm/tornado that swept through the area. The county should really look at placing a consistent drainage system specifically on Parker Lane (ditches, rock, etc... need to be considered for this roadway).	Apr 20, 2011 8:47 AM

281	The congestion on Dabney Drive is overwhelming at times in AM and later in the day. You must ,must avoid Dabney Drive most of the day on Friday until after 6:30. The extension of the loop to US 1 will help greatly with this issue. Expanding Graham Ave could help as well.	Apr 19, 2011 4:48 PM

283	The Tiny Broadwick loop road needs to extend to US 1, and preferably connect US 1 & I-85, unencumbered by a business route w/traffic lights. Otherwise, it is a massive economic waste & only serves a small portion of business & property owners on a very small corridor.	Apr 19, 2011 4:15 PM

286	Intersection of S. Beckford Dr. @ Dabney Dr. - Traffic light with a left turn arrow needed. Existing light takes forever to cycle to green and then having to yield to traffic coming from Graham Ave. will only allow one or two vehicles to turn left before light is red again, leaving long line of traffic waiting to make left turn onto Dabney which then impedes traffic flow into Wendy's side entrance and makes it impossible to turn left out of Marketplace Shopping Center at peak traffic times. Intersection of Raleigh Road @ S. Garnett St.- red light cycle is too long when making a left turn from Raleigh Rd. onto S. Garnett St.	Apr 19, 2011 12:03 PM

114	Safety problems exist at some intersections off of I-85 and Highway 1. Some problems could be eliminated with better signage. Some signage is too close to the exit. Greater time notification should be provided. Additionally, maintenance of right of way on both secondary road, and especially on Interstate 85, is critical. Last year there was so much growth that some signs could not be seen which created(es) safety problems.	Apr 25, 2011 8:48 PM

122	I feel that there is a pedestrian safety problem at the intersections of both North and South Cooper Drives. I have seen people dodging traffic in these area on several occasions. Could a crosswalk be put there and a button for pedestrians to push to change the light.? I have noticed two vehicle safety problems. There is an arrow on Dabney Drive directly in front of Chic-fil-a. Could that arrow be painted over? I have witnessed people making u-turns to get over to Chic-fil-a. This arrow makes people think that they can make that turn without having to go to the light. This is especially true for people from out-of-town. The second problem that I have noticed is that people try to turn in front of McDonalds from the traffic lane and not from the light. Could there be better signage or maybe the same kind of yellow sticks as on the side of the post office could be put in place so that people turning from the wrong lane no longer impedes the flow of traffic? 26	Other areas in Raleigh & Wake Forest have signs showing how to navigate a round-about. Why don't we have one at the round-about in front of the Library? There are a lot of people here that don't understand that the flow of traffic goes around the circle.	May 30, 2011 11:56 PM
27	Whatever the offered mode of transportation...I would like to see ALL citizens of this County who need this-have it.- especially the elderly and the handicapped...without fear. If this City/County spends our tax dollars on ANY system that may as well be HUD on wheels-I am totally against it ! If strictly enforced laws are not laid down -from jump street...all will be lost in a short period of time.	May 26, 2011 1:25 AM

First of all, it makes a mess on everybodys vehicles for about a month and secondly, it doesn't fix the cracked asphalt. Then you don't see them again for another 10 years because they think they have done something.	May 22, 2011 6:23 PM

88	Attention to some of the pavement needs in the half of the county where most minorities live, which would be in East and North Henderson, Middleburg, Williamsboro, Townsville. (Pavement of areas to the lake). Maintenance of green areas around exits (such as I-85 and Satterwhite Point Road) is not good at all. Take the I-85 South exit onto Satterwhite Point Road and turn left at exit. View can be terrible, especially in the summertime.
